

# THE PUPPY PALACE

## DOGGIE DAY CARE

APRIL 2023

Volume 17, Issue 4

### SUNS OUT TONGUES OUT

*(from left to right)*

Sami, Sig, Laika, Teddy, Charli, Cleo, and Loki are loving the nice weather! Everything is better when we can enjoy the great outdoors!

## SPRING REMINDERS

Few reminders as we enter our busy time of year:

- **Time to begin your Flea & Tick treatment!**  
Seresto collars are not allowed to be worn at day care. Please allow any topical treatments to dry out before attending day care. Nobody wants a mouthful of chemicals!
- Please be courteous and cancel any reservations you do not need. We do not charge for missed appointments, but it is unfair for us to turn away guests that really need your spot.
- Please unleash and leash your pup inside the purple corral in the office to ensure your pup does not run out of any doorways.

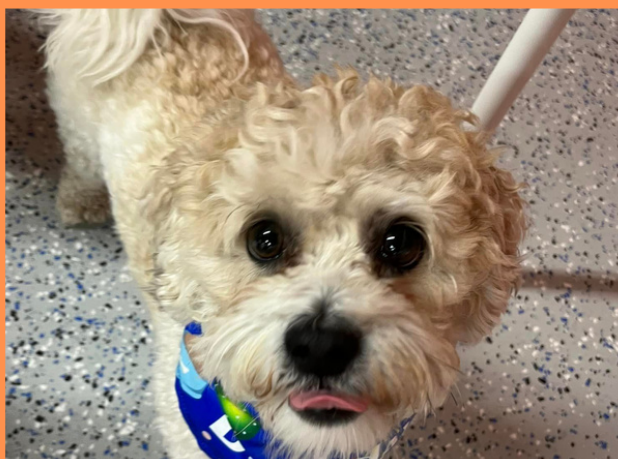

## SUMMER LOVIN'

Starting this month we will begin our swim tests! This will definitely let us know if your dog likes to swim so we can determine how they will handle the heat this summer!

Pools are out on warm days and drained around 3:30 to allow time to dry before pick up!

On sunny days we will apply sunblock to dogs with sensitive skin, such as whippets and pit bulls. You may supply your own and we will apply as needed.

### MARSHALL

*Marshall is a bichon mix who goes by many names here at Day Care! For some reason, we all agreed he looks like a "Chuck", so that's what we call him half the time. Whatever he goes by, we just know he's here to have the time of his life and he makes the most out of every day! We love that we get to spend time with our little Marshall-Chuck!*
